

PRINT ONCE A SEASON, REUSE FOR EVERY CONFERENCE BLOCK

PARENT TEACHER CONFERENCE KIT

A sign-up sheet parents actually like better than first-come-first-served, a one-page prep sheet per student, and the page nothing else in this niche sells: an AI page that turns a handful of de-identified scores into three talking points and one specific ask for home — for the twenty-five conversations that are the real dread of conference week.

- **Sign-up sheet** — parents rank their top three times, in-person or virtual, instead of racing to claim the first slot.
- **Master schedule grid** — your finished day, one page.
- **Reminder slip** to send home the week before.
- **Conference prep sheet** — one page per student, filled in beforehand.
- **The talking-points page** — a strengths / growth / one-ask structure with sentence starters, zero technology required.
- **The AI Conference Prep page** — the differentiator.
- **Notes page** for during the conference.
- **Follow-up log** — what was agreed, what happens next.
- **No-show follow-up note.**

BEFORE YOU USE ANY PAGE IN THIS PACK

This kit helps you **prepare and organize** conferences.

It never scores a student, never drafts a formal evaluation, and never replaces your own judgment about what a family needs to hear.

How to use this kit

Send the sign-up sheet two to three weeks before conferences. Build your master schedule from the returned sheets. Fill in one prep sheet per student a few days ahead, using the talking-points page (or the AI page, if a pattern in the data is hard to put into words) to get your language ready before the family walks in. Print what you need — every page here also works as a stand-alone single sheet.

2-3 WEEKS BEFORE

Send the sign-up

Give families a real choice of times instead of a single link.

A FEW DAYS BEFORE

Fill in prep sheets

One page per student, using the talking-points page or the AI page.

DAY OF

Talk, then log it

Use the notes page during, the follow-up log right after.

Sign-up sheet

Parents mark their top three times in order of preference, instead of racing to claim the one slot that works — a fairer system than first-come-first-served, and fewer emails asking you to swap.

STUDENT'S NAME

PARENT / GUARDIAN NAME

BEST PHONE OR EMAIL

Rank your top three times (1 = first choice)

Mon 4:00	Mon 4:20	Mon 4:40	Tue 4:00	Tue 4:20
Tue 4:40	Wed 4:00	Wed 4:20	Wed 4:40	Write in your own

IN-PERSON OR VIRTUAL – CIRCLE ONE, OR MARK EITHER IS FINE

Blank time cards, since every school's schedule is different — write in your own start times before copying, or hand-letter them on the master.

Tip: leave one early-morning or evening "flex" slot on the grid for the family who genuinely cannot make an after-school time — it fills first, and it is usually the family you most need to see.

Build this from the returned sign-up sheets, matching each family's highest-ranked open slot. One finished page for the day of.

[illegible]

Cut in half, send home the week before. Fill in the blanks once and photocopy for the whole class.

Your conference for _____ is on _____ at _____.

Running late or need to reschedule? A one-line note works — families appreciate not having to guess how to reach you.

Conference prep sheet – one page per student

Fill this in a few days ahead so the conference walks in already organized.

STUDENT

WHAT'S GOING WELL RIGHT NOW

ONE AREA FOR GROWTH

THE ONE ASK FOR HOME

QUESTIONS THIS FAMILY HAS ASKED BEFORE, OR IS LIKELY TO ASK

The talking-points page – zero technology

A strengths / growth / one-ask structure with sentence starters, for the days you want the words ready without opening a laptop.

Opening a strength: "One thing I want to make sure you know is..." · "[Student] has really grown in..." · "Something I appreciate about [student] is..."

Naming a growth area: "An area we're working on together is..." · "Right now, [student] is still building..." · "One thing that would help [student] grow is..."

Making the one ask: "The most useful thing you could do at home is..." · "If we focus on one thing together, I'd suggest..." · "Here's one small thing that would make a real difference..."

Pick one starter from each row, fill in your own specifics, and you have a complete, warm, honest three minutes before the family ever sits down.

The AI Conference Prep page

This is the page nothing else in this niche has: paste de-identified scores and patterns and get back three talking points and one specific ask for home. Never a name, never a roster — a grade level and a pattern only.

Needs a clear ask

Steady, keep going

Strong, worth naming specifically

Worked example — a 4th grader, 6 out of 10 on a recent multi-digit multiplication quiz, strong on estimation and mental math, slower on the standard algorithm.

Strength: reliable number sense — can estimate an answer before working the problem, which catches most careless mistakes on its own.

Growth area: the standard multiplication algorithm still takes extra time and occasional regrouping errors.

One ask for home: five minutes, three nights a week, of untimed multiplication practice with the standard algorithm — speed can come later, accuracy first.

Copy-paste prompt: three talking points + one ask

"Here is a de-identified snapshot for one student conference: [PASTE GRADE LEVEL, THE SUBJECT OR SKILL, A RECENT SCORE OR PATTERN — NO NAME, NO ROSTER, NO DISABILITY LABEL]. In four short sentences: name one genuine strength, name one growth area in plain language a family will understand, and draft one specific, doable ask for home. Do not use technical jargon, and do not state a grade, diagnosis, or formal evaluation — this is a conversation starter, not a report."

The chatbot drafts language from a pattern. Whether it fits this particular family, and what you actually say in the room, stays your call — every time, for every student.

Notes page — during the conference

Keep this open while you talk so nothing gets lost once the next family walks in.

STUDENT

WHO ATTENDED

WHAT THE FAMILY SHARED THAT YOU DIDN'T KNOW BEFORE

QUESTIONS THEY ASKED

WHAT YOU AGREED TO TRY

Follow-up log

What was agreed, and what happens next — the page that keeps a conference from being forgotten by the following Monday.

Student	What was agreed	Follow-up by	Done?

No-show follow-up note

A short, warm note for the family that missed their slot — keeping the door open instead of letting the miss go unaddressed.

Hi _____ — I missed you at our conference time on _____. No worries at all —

I know schedules get busy. I'd still love to connect about _____. Would _____ or a quick phone call work better? Let me know what's easiest for you.

Tip: send the no-show note within 48 hours. Waiting until the next conference block reads as "we didn't notice," even when the real reason is a busy week.

De-identification, always

BEFORE ANY PAGE IN THIS PACK GOES INTO A CHATBOT

Grade level, subject, and a pattern or score only.

Never a name, never a class roster, never a diagnosis or formal label.

This applies to every prompt in this pack, including the AI Conference Prep page. If a sentence you're about to paste would let a stranger identify the student, take out the detail that does it before you paste.

What this kit is not

- **Not a grading or scoring tool.** It organizes conferences and helps you find words — it never assigns a grade or a formal rating.
- **Not a compliance document.** Follow your school's official conference-scheduling and documentation process; use these pages as your own working tools alongside it.
- **Not legal or clinical advice.** It never characterizes a child, never suggests a diagnosis, and never drafts anything that reads as a formal evaluation.

Want the fast front door to this family? Our Parent Communication Log and Parent Message Makeovers cover everything between conferences. In our TpT store.
